Catering Menu Options

Monday, July 28, 2008

Below you will find lists of our various catering menu items. All of our dishes will be prepared fresh. We will not simply heat up frozen food and serve it as our own. Our meals generally consist of three entrées, three side dishes, two salads, and bread. Prices vary depending on your choices but are generally determined by entrée items. I have included a list of different options that previous clients have gone with to give you some ideas.

Your package will include a choice of entrées, three side dishes, salad, and bread as well as all condiments. We can provide all plates, bowls, silverware, and napkins for your party as well. The price is based on a buffet style dinner and does not include servers for your party. We can accommodate this for you if needed.

Beverage and/or Dessert options are available based on the needs of your event as well.
